The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis

for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(a) the invention was known or used by others in this country, or patented or described in a printed publication in

this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or

on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Hollie. Hollie

shows all the structure of the device as recited by the claims.

Claim 3 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Wakat et al.

Wakat et al shows all the claimed structure.

Claim 2 is rejected under 35 U.S.C.103 (a) as unpatentable over Lundy and Ippolito. To

provide a paint container with a spout is old as shown by Lundy. It would have been obvious to

provide any paint container with spout in order to enhance the handling process. The location of

the spout is considered as an obvious matter of choice and design as no unobvious and

unexpected result is seen.
